GLOW BEAUTY

MAKE UP APPLICATION

Match your Foundation

Your foundation should **match what people actually see—not just your face.**

Test near the jaw, compare it to your chest, and choose the shade that melts in.

Which swatch would you pick? ♥

Too Light

Light

Close Match

Too Dark

Too Deep

CC: Model demonstrating foundation shade matching with five face swatches.

MUHLE GLOW BEAUTY ACADEMY

FACIAL MAPPING

UNDERSTANDING THE FACE

MODULE 2
ANATOMY &
PHYSIOLOGY
OF THE SKIN

KNOW THE FACE. ENHANCE THE BEAUTY.

1. FOREHEAD

Area of expression.
Note texture, oil
production and
fine lines.

2. EYE AREA

Delicate and thin skin.
Requires gentle
care and specialised
products.

3. BETWEEN THE EYEBROWS

Common area for
expression lines.
Keep skin hydrated
and balanced.

4. NASOLABIAL FOLDS

Smile lines that can
show with ageing.
Focus on hydration
and firmness.

5. CHEEKS

Observe skin tone,
elasticity and
hydration levels.

6. FACIAL JAWLINE

Defines the lower face.
Support with firming
and lifting techniques.

7. SKIN AROUND THE EYES

Very delicate area.
Prone to fine lines,
dark circles and
puffiness.

8. FACE NOT SAGGING

Loss of elasticity
affects firmness.
Support collagen
and elastin.

9. JAW AREA

Supports facial
structure. Maintain
tone and definition.

WHY FACIAL MAPPING MATTERS

Accurate
skin analysis

Better client
consultations

Targeted
treatment

Flawless makeup
application

Effective facial
massage

Correct product
application

Understanding the facial zones helps you treat, enhance and care for your clients with

CONFIDENCE, SKILL & EXPERTISE.

Remember

Every face is unique.

Assess, listen and
customise your approach
for the best results.
